Across our campuses, we have over 200 drinking water fountains as well as filtered hot and cold water in student and staff kitchen areas to provide free drinking water to all students, staff and visitors.

The Accessing Free Drinking Water on Campus Guide provides maps with detailed information on drinking water locations. This guide also outlines the benefits of refilling and reusing water bottles to prevent waste and plastic pollution entering aquatic and terrestrial environments.

Did you know?

Australians buy **15 billion** water bottles each year¹

75 -199 million tonnes of plastic is currently in our oceans²

12% ends up in our oceans⁵

What can you do?

It takes 3L of water and **1L of oil** to produce just 1L of bottled water³

Buying bottled water is 2000% more expensive than refilling¹

Choose to **reuse**
Bring a reusable water bottle

Refill on Campus
Griffith has over **200** drinking water stations

Save water
Save money

Reduce waste

Water refill locations
