

IMPACT REGISTER FOR CRE-RELATED ACTIVITIES

Researchers (n=10): Wendy Chaboyer, Brigid Gillespie, Elizabeth McInnes, Claire Rickards, Amanda Ullman, Sharon Latimer, Georgia Tobiano, Josie Lovegrove, Rachel Walker, Angela Wan

Summary

Domain/item	2022	2023
Quality Indicators		
Invitation to deliver keynote/plenary lectures	n=12	n=12
Proportion of CRE-related peer-reviewed outputs in top 10% of journals in their field	42% (33/79)	41% (44/108)
Proportion of publications as first and/or senior author	43% (34/79)	46% (53/114)
Reports – commissioned	n=1	n=0
Outreach Indicators		
Grants with research implementation organisation as Chief Investigator / partner organisation, e.g, hospital foundation grants with partner hospitals	n=12	n=6
Presentations to government	n=1	n=1
Proportion of projects involving consumers and community	53% (21/40)	77%
Training provided to organisations with the goal of improving health	n=28	n=18
Personnel Indicators		
Number of external researchers at institute as part of an exchange or visiting scholar program	n=0	n=8
Number of research student completions (PhD, Masters, Honours)	n=6 PhD n=2 honours	n=2 honours
Staff participating in professional development to improve skills (E.g., Research or research management skills)	n>40	n=29
Sector Building Indicators		
Members on funding review panels	n=12	n=10
Researchers on external infrastructure committees	n=4	n=8
Researchers on external scientific committees	n=5	n=11
Health and Wellbeing Indicators		
Clinical practice changes informed by research	n=6	n=14

Domain/item	2022	2023
Involvement in external decision-making groups (including community groups)	n=4	n=12
Research cited in ongoing health professional education material (health-related education)	multiple	multiple
Research Indicators		
Consultancies E.g., Biobanks, registries	n=22	n=2
Journal editorships	n=11	n=8
Health System Improvements Indicators		
Clinical tools developed E.g., Decision support tools, web-based tools for patients *	n=5	n=4
Clinical intervention studies E.g., trials, pilots	n=19	n=14
Health Products Indicators		
Training and education products delivered E.g., For researchers, clinicians, health services, Government, industry, not-for-profit organisations, consumers and community with consideration of level of uptake	n>10	n>10
Economic impacts Activity Indicators		
Job creation E.g., Employment of researchers, health professionals	n=53	n=47
Impact practices Indicators		
Initiatives for improving engagement E.g., With end users of research and the community	n>15	n>10
Initiatives for improving research collaboration, e.g., number of grant writing workshops	n>12	n=12
Training and access to resources for research impact assessment	n>12	n=3
Training and professional development E.g., Knowledge translation training, communicating your research findings	n>30	n>30
Publications	n=55	n=59

* Clinical tools developed (n=9):

1. [Pressure Injury Prevention Toolkit](#) (DVD, poster and brochure available in 8 languages) (Wendy Chaboyer)
2. [Perioperative Perceived Competence Scale-Short Form](#) (Brigid Gillespie)
3. [Perioperative Perceived Competence Scale-Revised](#) (in 8 languages) (Brigid Gillespie)
4. [End-of-life Wound Assessment Tool](#) (Sharon Latimer)
5. [Surgical Wounds and Patient Participation Questionnaire \(SWAPP-Q\)](#) (in English, Dutch & Swedish) (Georgia Tobiano)
6. [Translation and Testing of an ICU PI Risk Assessment Tool](#) (in English, Spanish, Chinese & Turkish) (Josie Lovegrove)
7. [I-DECIDED Intravascular Device Assessment and Decision Tool](#) (in numerous languages) (Claire Rickard)
8. [IV Passport](#) (Amanda Ullman)
9. [miniMAGIC](#) (Amanda Ullman)
