For more information see below and via this link [SlideRoom Applicant Help Centre](#)

Media File Requirements

Acceptable File Types

SlideRoom accepts all media file types. However, some media file types are optimized for viewing in a browser, resulting in an easier-to-view portfolio, the following file types may be uploaded to SlideRoom:

- Images: .jpg, .jpeg, .png, .gif, .tif, .tiff, .bmp, .tga
- Videos: .m4v, .mov, .mp4, .wmv, .flv, .asf, .mpeg, .mpg, .mkv
- Audio files: .mp3, .wma, .ogg, .flac
- Documents: .pdf
- Linked Media: Vimeo, YouTube, SoundCloud, Sketchfab
 - Note that linked media items must be public, and the links should be to individual files rather than sets, playlists, or collections. Additionally, YouTube files must be allowed to be embedded on external sites.

Acceptable File Sizes

Keep in mind the following information when uploading files to the Portfolio section on SlideRoom:

- Images must be under 5 MB.
- You can upload images with any dimensions, as SlideRoom resizes images larger than 1280 x 1280 x 72 ppi.
- Videos must be less than 250 MB in size.
- Audio files must be less than 30 MB in size.
- Documents must be less than 10 MB (unless otherwise stated on the Portfolio step).

Images and videos are subject to be compressed to be displayed properly in SlideRoom.
